***Terminal Disclaimer***

The terminal disclaimer filed on March 13, 2007 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Reissue Patent No. RE37,388 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Declaration***

The reissue oath/declaration filed March 13, 2007 is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

- 1) The reissue oath/declaration filed March 13, 2007 with this application is defective because it fails to appropriately state that applicant believes the original patent to be either wholly or partly inoperative or invalid by reason of a defective specification or drawing, or by reason of the patentee claiming either more or less than the patentee had the right to claim in the patent. See M.P.E.P. 1414(I).
- 2) The reissue oath/declaration filed March 13, 2007 is defective because it fails to appropriately identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The reissue oath/declaration filed March 13, 2007 does not clearly state an error within the original Patent. Language directed to "e.g., a claim in non-Jepson format reciting, in part, a recessed area in a top panel of a roof ventilator, the recessed area being non-linear in cross section, which is broader in scope than, e.g., claim 9, which

recites a recessed area having a pair of side walls traversing a generally oval-shaped path", does not clearly establish the error upon which the instant reissue application is based.

M.P.E.P. 1414(II)(C):

Any error in the claims must be identified by reference to the specific claim(s) and the specific claim language wherein lies the error. A statement of " ... failure to include a claim directed to ..." and then presenting a newly added claim, would not be considered a sufficient " error" statement since applicant has not pointed out what the other claims lacked that the newly added claim has, or vice versa. Such a statement would be no better than saying in the reissue oath or declaration that " this application is being filed to correct errors in the patent which may be noted from the change made by adding new claim 10." In both cases, the error has not been identified.

3) The reissue oath/declaration filed March 13, 2007 is defective because it fails to identify all amendment by which the claims of the patent have been changed. See 37 CFR 1.63(b)(2) and MPEP § 1414.

4) The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following: The reissue declaration filed March 13, 2007 fails to state that the person making the oath or declaration acknowledges the

duty to disclose to the Office all information known to the person to be material to patentability as defined in § 1.56.

***Claim Rejections - 35 USC § 251***

Claims 16, 17, 21-34, 49, 51, 52, 54, 56, and 58-60 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

Applicant is notified that any subsequent amendment to the specification and/or claims must comply with 37 CFR 1.173(b).

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
